PRODUCT SPECIFICATIONS

DAWE ACE is a water-dispersible, stabilized source of Vitamin C, Vitamin E and Beta-carotene. Each 6 oz. is guaranteed to contain 90g Ascorbic Acid and 12,500 IU of Vitamin E.

PHYSICAL DESCRIPTION: Light-tan, granular powder.

PACKAGING: 12 oz. bottles (6 per carton); 10 lb pails; 20 lb pails.

SOLUBILITY: Excellent.

SUGGESTED USES: To help compensate for Vitamin C, Vitamin E and/or Beta-carotene when the activity of any of these nutrients is reduced in the feed; also during times of increased need due to malabsorption, breeding, vaccination, depressed feed consumption, heat or cold stress, or physical exertion.

MIXING DIRECTIONS: 6 oz. per 128 gallons of water (Prepare a fresh solution daily).

CONSUMPTION GUIDE: 6 oz. per 128 gallons will treat the following poultry and livestock daily:

CHICKENS (Age)	HOGS
1 week 28,500	25 lbs 300
3 weeks 8,500	50 lbs 200
5 weeks 5,300	100 lbs 125
