SUGGESTED USES and DIRECTIONS:

Mix in drinking water, or sprinkle on food. Each scoop holds approximately 1 ounce (4 rounded tablespoons). Use daily or as required, at the following rates for every 40 pounds of body weight:

- **Attractant to promote water or food consumption.** Provide **1 scoop** (4 tbs.) in 1 pint of water or on food per 40 pounds of body weight
- **Nutritional support or attractant for sick or convalescing animals.** Provide **2 scoops** (8 tbs.) in 1 pint of water or on food per 40 pounds of body weight.
- **Supplement for working or sport dogs.** Depending on activity level, provide up to **3 scoops** (12 tbs.) in 1 pint of water or on food per 40 pounds of body weight before and after physical exertion.

NOTES:

Because **DOG FORTÉ** is so palatable, dogs may consume all water containing this product. Adjust amount of water to dog size: Serve no more than 1 pint of water plus **DOG FORTÉ** per 40 pounds of body weight. Seal after each use. Discard supplemented water or food not consumed within 8 hours. Store in a cool, dry room.
