DIRECTIONS

Mix in drinking water, or sprinkle on food. Each rounded scoop holds approximately 1 ounce (4 tablespoons). Use daily, or as required, at the following rates for every 40 pounds of body weight:

- **Attractant to promote water or food consumption.** Provide **1 scoop** (4 tbs.) in 1 pint of water or on feed per 40 pounds of body weight.
- **Nutritional support or attractant for sick or convalescing animals.** Provide **2 scoops** (8 tbs.) in 1 pint of water or on feed per 40 pounds of body weight.
- **Supplement for working or sport dogs.** Depending on activity level, provide up to **3 scoops** (12 tbs.) per 40 pounds of body weight before and after physical exertion.

CAUTION: **DOG FORTÉ™** is extremely palatable. Dogs may attempt to consume all water offered containing this product. Adjust amount of water to dog size.

Seal container after each use. Discard supplemented water or food not consumed within 8 hours. Store in a cool, dry room. For animal use only. Keep out of reach of children.
