

## PRODUCT SPECIFICATIONS

**DAWE-ADE™** is a water-miscible source of Vitamin A, D<sub>3</sub> and E.

Each 40 gm. packet contains:

PHYSICAL DESCRIPTION: Light tan, fine, granular powder

**PACKAGING:** 40 gm. foil packets; 100 packets per pail

**SOLUBILITY**: Excellent

**INDICATIONS:** To help compensate for Vitamins A, D3 and E which are no longer available in

adequate amounts because of depressed feed consumption or increased needs.

**SUGGESTED USES:** At placement, vaccination, in the presence of disease, during weather extremes, at

farrowing, weaning, worming, castration, dehorning, excessive work and parturition.

MIXING DIRECTIONS: Mix 1 packet per 128 gallons of water. For water proportioners delivering 1 oz. of

stock solution per gallon of drinking water, mix 1 packet per gallon. See packet for complete directions. Prepare fresh solutions daily.

**CONSUMPTION GUIDE:** A 40 gm. packet will supplement the following poultry and livestock daily\*:
