PRODUCT SPECIFICATIONS

ACIDIFIED COPPER SULFATE is a nutritional supplement of dietary copper

ACIDIFIED COPPER SULFATE contains:

Copper Sulfate, Citric Acid

COLOR AND TEXTURE: Blue, granular powder.

PACKAGING: 16 ounce packets; 40 packets per carton.

SOLUBILITY: Excellent

INDICATIONS:

- When dietary copper supplementation is required
- When algae and other microorganisms are excessive in water
- For interdigital skin diseases such as dermatitis and foot rot

SUGGESTED USES: To supplement copper in feed and water, as an antimicrobial for use in livestock drinking water, or as a footbath. **DO NOT USE FOR SHEEP**

MIXING DIRECTIONS:

For drinking water: Mix 1 packet per 256 gallons of water. For water proportioners delivering 1 ounce of stock solution per gallon of drinking water, mix 1 packet per 2 gallons.

For footbath: Mix with water to achieve a 5% to 10% solution (0.4 to 0.8 lbs per gallon of water). Use 1-5 times per week depending on cleanliness of feet. A pre-bath may be necessary.
