PHYSICAL DESCRIPTION: Brown, granular powder in number 10 gelatin capsules.

PACKAGING: 25 capsules per carton; 12 cartons per shipper.

SUGGESTED USES: As a nutritional aid in restoring metabolic processes when cattle are off-feed due to stresses such as:

- Diet change - high producing cows on high grain - low roughage rations
- Drug Therapy
- Parasitism
- Convalescence
- Preconditioning animals - prior to changes in their feeding program, including 7 days before and after freshening

CONSUMPTION GUIDE: Administer 2 - 4 capsules daily with a balling gun or sprinkle contents on animal's feed. The number of capsules to administer depends on animal size and condition. Divide daily dose between A.M. and P.M. Offer for 3 - 5 days. Refer to above for use during freshening.
