PRODUCT SPECIFICATIONS

FIRM-O-SHELL® is a source of Vitamins D₃, A, and E and the trace minerals important for egg shell formation. It is designed to counteract the effects of stress, age and digestive issues.

PHYSICAL DESCRIPTION: Light-tan, granular powder.

PACKAGING: 50 lb. bulk bags.

GUARANTEED ANALYSIS: Crude Protein, Min 0.35%; Crude Fat, Min. 0.01%; Crude Fiber, Max. 3.75%;
Vitamin D₃ (IU) 800,000 per pound

FIRM-O-SHELL CONTAINS: Calcium Carbonate, Rice Mill By-Product, Corn Distillers Dried Grains, Dried Fermented Corn Extractives, Dried Extracted Streptomyces Fermentation Solubles, Sodium Bentonite, Yeast Culture, Sodium Bicarbonate, Copper Sulfate, Zinc Sulfate, Manganous Sulfate, Zinc Oxide, Ferrous Sulfate, Cobalt Sulfate, Choline Chloride, Copper Proteinates, Manganese Proteinates, Zinc Proteinates, Vitamin A Supplement, Vitamin D₃ Supplement, Vitamin E Supplement, Folic Acid, Pyridoxine Hydrochloride, Calcium Iodate, Artificial and Natural Flavors, BHT and Ethoxyquin (Preservatives).

SUGGESTED USES: In times of stress, increasing age or digestive upset resulting in thin or weak shells, **FIRM-O-SHELL®** provides increased levels of highly available forms of Vitamins D₃, A, and E and the trace minerals important for egg shell formation.

CONSUMPTION GUIDE: **FIRM-O-SHELL®** is a supplement for normally adequate laying rations.
Use as follows:

Use	Amount per Ton of Complete Feed
For first five (5) weeks of production	2.5 lbs.
From approximately 46 weeks of age until end of laying cycle	2.5 lbs.
Onset of non-disease related shell problems: First week	5.0 lbs.
Thereafter, until shells are normal	2.5 lbs.
For breeders, use throughout the entire laying cycle	2.5 lbs.
